## Experience

### River Island

Front End Developer

*Jan 2015 - May 2016*

River Island are a well-known fashion company throughout UK and Ireland. Also, they are represented globally through our stores in Western Europe, Eastern Europe, Middle East and Asia. The e-commerce business is helping to set the trend globally, shipping to 125 countries whilst also growing our presence on the world's leading digital fashion marketplaces.

Skills acquired:

- Aesthetic design
- Commercial exposure in Front-end technologies - HTML5, CSS and JavaScript
- Experience on two different CMS
- Working as an individual and as a team to reach a common goal

At River Island I was in control of managing and maintaining the website for UK, EU, US, AU, DE, FR, NL and SE. If a promotion doesn't go live or a webpage is showing the wrong content, my role would be to identify the cause of this issue and solve the problem as soon as possible.

## Dan Woolloff Ltd

Web Developer

*Nov' 2013 - Jan 2015*

Dan Woolloff Ltd have worked with a number of major companies such as Aston Martin and Silverstone racetrack. As well as developing an intuitive EPOS system for the restaurant chain, Inamo. While working here I had been working as a Web developer. I created data driven dynamic templates with semantic layouts. I made sure that I was up to date best practices in web development.

Skills acquired:

- HTML5
- CSS3/SASS/SCSS
- JavaScript/JQuery
- MySQL
- Jira
- Agile
- GIT
- PHP
- WordPress
- Photoshop
- IntelliJ
- SEO

During my time at Dan Woolloff Ltd I got taught the fundamentals of Web Development. Together we created a WordPress website for his client, including a custom CMS & a custom theme, designed specifically to give the client the best solution. Additionally, Dan and I maintained and enhanced existing client's websites.
